90 Day Follow Up

The 90 Day follow up for ENOS is carried out by Sharon Ellender for centres in UK and the Republic of Ireland, from the International Coordinating Centre in Nottingham. There are 16 Follow Up Coordinators at the National Coordinating Centres (NCCs) around the world that carry out follow ups internationally.

Follow up is carried out at 90 days, +/- 7 days by telephone assessment (or very occasionally by postal form). A check is always made beforehand to ensure that patient is still living and the contact details are current. Telephone follow-up lasts 5-15 minutes, dependant on who (either patient or carer) is answering the questions. The data is then entered onto the ENOS website.

Key issues:

- All patient details need to be received at NCC, at least 1 month prior to follow up date.
- Ensure that the 'patient details form' is complete, accurate, and updated.
- Ensure that the patient can be contacted at day 90 by telephone.
- Avoid randomising patients that are on holiday, non resident workers, or patients who cannot be contacted at day 90.
- All SAEs need to be entered by day 90.

Telephone follow ups are preferable, as we can then assess cognition, MOOD, TICs and MMSE, which would be omitted on the postal form. We have occasionally carried out a clinic visit if necessary (more usually international centres). We have recently had a few patients withdraw from the trial, which is unusual. However, we still make contact at day 90 to obtain what information is available.

We are finding that collecting contact data is becoming more of a challenge and we urge all centres to try and ensure the correct contact details and several addresses (patient and relative where possible) are given at the time of randomisation. Patients should not be randomised into the trial if they do not agree to be followed up at 90 days, as we cannot then obtain the primary outcome.

UK Stroke Forum

Many thanks to all Investigators that visited the ENOS stand and attended the ENOS/IST-3 Investigator Meeting in Glasgow at UKSF. The meeting was attended by many more delegates than we expected, but we were delighted to see so much enthusiasm and interest from centres.

We will be sending a certificate of attendance to all people that signed the register in due course. If you do not receive a certificate, please email enos@nottingham.ac.uk and we can arrange for this to be sent to you.

Our next UK Teleconference Workshop is scheduled for 27 January at 1pm.

Congratulations to....☆☆☆

- Musgrove Park Hospital, Taunton, Bangor Hospital UK, Solihull Hospital, Birmingham for recruiting their first ENOS patients.
- Oradea, Romania, Chesterfield UK and Torbay UK for being the Highest Recruiting Centres in the last 90 Days.

Romania Investigator Meeting

Our thanks go to Dr Szabolcs Szatmari and team for hosting an ENOS Investigator Meeting at the Symposium de Diagnostic si tratament in AVC in Targu-Mures, Romania on 13 November. This was well attended by staff from the National Coordinating Centre in Romania, participating sites and new sites likely to join ENOS. We were also pleased to welcome Dr Daniel Bereczki from Hungary, SAE adjudicator for ENOS.

Dr Szabolcs Szatmari,
National Coordinator
and his team,
Romania

ENOS Trial Office Changes

Lida Kaur, Data/Imaging Officer and Michael Tracy, Statistician have left the ENOS team for pastures new. We would like to welcome Tanya Jones, Data/Imaging Administrator and Cheryl Hogg, Statistician to the ENOS team; both are due to join in the New Year. Dr Tim England is also leaving the Division, so the remaining ENOS Trial Medics will be Dr Sandeep Ankolekar and Dr Chamila Geeganage.

Some of the office telephone numbers have changed and contacts are now as follows (changes highlighted):

- +44 (0) 115 823 1770 – Main ENOS Office Tel - Yvonne Smallwood
- +44 (0) 115 823 1769 - Sandeep Ankolekar and [Tanya Jones](#)
- +44 (0) 115 823 0287 – Sally Utton and [Sharon Ellender](#)
- +44 (0) 115 823 0286 – Lynn Stokes and [Cheryl Hogg](#)

Tips of the month

SAE form question, A11:

- On the SAE form, question A11 "relationship to study drug" should be answered as if blind to treatment, i.e. answered the same whether randomised to GTN or no GTN.
- Please remember to fax us your drug accountability forms in January.

*****Recently Updated Forms*****

- List of SAEs, v1.2
- Data Monitoring Committee approval, 23 Nov 09
- MRC, Grant Award Letter, 26 April 2006

The ENOS Trial Office in Nottingham will have minimal staff cover on 24, 29, 30 and 31 December and will be closed on 25, 28 Dec and 1 January. The ENOS trial will be fully operational during this holiday period. If you experience a problem with randomising, please call the ENOS emergency numbers on the ENOS Trial Office Contact Sheet.

*Seasons Greetings to Everyone from
the ENOS Team and Happy 2010*

ENOS now has 129 centres in 18 countries. More centres are welcome.
