ENOS Recruitment and Closedown

As we enter the final year of ENOS recruitment, please continue to recruit patients **as early in the 48 hour time window as possible**. We have been sending prizes to centres that have recruited early and will continue to do so over the next few months. The early data may prove to be invaluable in the final stages of the trial. A no-cost extension has been requested from MRC, results pending at present.

Please send all faxes, upload online forms and upload all CT scans to the ENOS website as early as possible.
