- Hampers and prizes for early recruitment and the most and earliest patients recruited every month are ongoing.

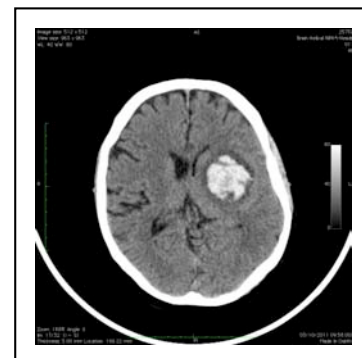

## European Stroke Conference, London, May

ENOS will be hosting stand 513 at ESC London from 28-31 May. Please do come and see us if you are attending ESC:  
<http://www.eurostroke.eu/>

## CT Scans

There is now the facility to upload images that are captured up until the 90 days follow-up. This will be especially valuable for any scans taken in relation to an SAE. If there are any clinical scans that fall into this category then please upload in the normal way. There will not be any payments for these scans.

For all scans, please upload all series of images including sagittal and coronal and normal and volume scans. We require a soft-tissue axial series as a minimum. The scans need to be anonymised **only** if they are to be posted on CD (or film).

## Tip of the month

Please **do not** fax SAE forms. These should be entered directly online the ENOS website.
