India Investigator Meeting

Thanks for all investigators for attending the Investigator Meeting in India on 23 October. The National Coordinating Centre for India, All Institute of Medical Sciences in Delhi, is currently second on our table of top recruiting centres in the last 90 days. This is a great achievement for a newly recruiting centre and our thanks and congratulations go to them.

Collaborators in India including Mr Mukesh Kumar (Project Assistant ENOS), Mr Kamal Gulati (Trial Manager, ENOS India), Prof Kameshwar Prasad (Indian National Coordinator), Prof Philip Bath, Ms Jasmine Kaur (Project Assistant)

Egypt Investigator Meeting

We would like to welcome Professor Anwar Etribi in Cairo as National Coordinator for ENOS in Egypt. Professor Etribi and Philip Bath hosted an Investigator Meeting in November for new collaborators to the trial. We hope to welcome them on board very soon and look forward to the first Egyptian patient being recruited. Professor Etribi has worked industriously and efficiently to secure translations and ethics approval, so we give special thanks to him for his efforts in starting ENOS.

Collaborators in Egypt, including Prof Anwar Etribi

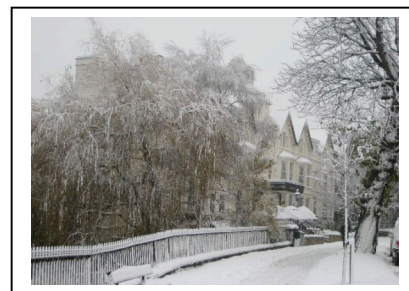

Congratulations to....

- All centres for recruiting 37 patients in November 2008, which is our highest ever recruitment per month.
- Cumberland Infirmary, Carlisle UK for recruiting their first ENOS patient.
- Derby Hospitals for being top of the ENOS top recruiting centres list.
- AIIMS Hospital, India and Christian Medical College, Ludhiana, India for recruiting their first five patients.
- Sri Lanka for recruiting an additional centre and a satellite centre.
- Hutt Hospital, NZ for re-starting recruitment.

UK Stroke Forum, Harrogate

ENOS jointly hosted a stand with the IST-3 trial at the UKSF and met with many UK colleagues.

Thanks for all the entries to the caption competition. The winning centre is Scarborough, with the entry "He should have been voted off last week". A Christmas Hamper is on the way to them.

Recruitment graph

Tip of the month

Please be aware that SAE reporting (date of event) is still necessary until the patient has received their day 90 Follow Up telephone call (this can sometimes be after day 90). If the patient dies before day 90, we still need an SAE completing. If you are unsure whether or not an SAE is required, please contact the ENOS Trial Office.

*****Recently Updated Forms*****

FAQ v1.7, Insurance letter for Eire 23 Dec 08, MREC approval of web information sheet, Data Monitoring Committee approval Dec 08.

ENOS now has 79 centres in 14 countries.

More centres are welcome.
